

Synergies for Energy Awareness Change

# FACT SHEET

- Founded on 21 April 2001
- Registered in Serbia and Kosovo
- 15 team members

The Fractal **mission statement** is to work towards better communication, trust and cooperation between people of different backgrounds.

## **Three pillars of work**

- Interethnic dialogue and cooperation
- Active citizens/participatory democracy
- Western Balkan within the EU context

## **Synergies for Energy Awareness Change**

**A joint initiative of NGO Fractal and the American University in Kosovo that seeks broad-based participation in discussing different energy issues among individuals and groups coming from various communities of Western Balkan region.**

**As a strategic level effort, SEA Change aims to set a platform for process oriented, ongoing and inclusive exchange of views and perspectives about energy issues in the Western Balkan region and to explore ideas about Synergies for Energy Awareness Change.**

## Issues:

- **Regional, Cross-Border Cooperation:** emphasizing and promoting regional common goods, interests and problems;
- **Civic Participation:** exploring ways that can bring energy issues closer to citizens, enable stronger civic participation and civic initiatives;
- **Inter-disciplinary, Cross-Cutting Approach:** envisioning, unlocking and strengthening mechanisms for meaningful communication across fields and disciplines;
- **Multi-stakeholder, Inclusive Dialogue:** exploring and encouraging synergies and cross-sector partnerships.

**Synergies for Energy Awareness Change**

**Thank you!**
